

Youth Group Award

2FACE Drama

Wellington based 2Face Drama developed initiatives to raise awareness around alcohol and violence, using performing arts as the platform to promote social change. Over 2,000 people saw the production, 'A Christmas Dream' which was produced by young people with lived experience of alcohol and violence. On-going work has grown from this initiative.

“2Face Drama was established in 2012 as a social enterprise targeted at engaging young people in social change initiatives. 2Face Drama has produced three successful productions all aimed at strengthening cultural identity and raising awareness of social justice - using performing arts as the vehicle.”
