

Change Maker Award

Charlizza Harris

Charlizza founded 2FACE Drama in 2012 to build leadership and life skills amongst young people in order for them to share their knowledge of kapahaka, choreography, drama and music.

Charlizza's philosophy is to encourage other youth to take on leadership positions, and by empowering volunteers through understanding the principles of youth development. Between 2009-2012 she created three companies through the Young Enterprise Scheme that were focused on addressing social issues affecting young people in her community.

“Charlizza has demonstrated outstanding leadership in a range of initiatives ... through her enterprise activities she has lobbied support from local organisations that enabled her to produce youth friendly resources targeting bullying, sexual health and cultural diversity.” These resources are still being used in schools and communities.”
