

Youth Group Award

Christchurch Youth Council

Christchurch Youth Council exists to support a stronger youth voice in the Christchurch area. It does this by hosting events, running consultations, writing submissions and creating a safe environment for young people to have their say about the rebuild.

The group's activities have ranged from working behind the scenes in the youth sector to contribute to Youth Voice Canterbury, to organising and running face-to-face events in the local community, to learning how to become an incorporated society that works on a professional level.

“Christchurch Youth Council has gone from a small group of young people running their activities under the roof of a local youth trust to a fully-fledged, independent and professional organisation that is making a name for itself in quite a few different circles.”
